**Doctor of Philosophy in Electrical and Electronics Engineering (Ph.D. EEE)**

- Minimum units for B.S. degree holder: 9 units
- Minimum units for Master’s degree holder: 12 units

**Admission**

Please visit or contact:

Graduate Office of the College of Engineering,
Melchor Hall Rm 119, University of the Philippines,
Diliman, Quezon City, Philippines 1101,
Tel No. +63.2.434.3662.
Email: grad@eee.upd.edu.ph

**Scholarships**

- **Engineering Research and Development for Technology (ERDT) Scholarships**
  - http://www.erdtecoe.upd.edu.ph/upd
- **AUN/SEED-Net Scholarships**
  - http://www.seed-net.org/support_scholars.php
  - http://www.seed-net.org/application_form.html
- **CHED Scholarships**
  - http://www.ched.gov.ph/index.php/home/graduate-students/

The University of the Philippines- Electrical and Electronics Engineering Institute (UP EEEI) is a premier institution for research and higher learning in the fields of electrical and electronics engineering. At UP EEEI, we prepare you to solve today’s complex technological problems across a wide range of areas and applications.

**OUR VISION:** To be the National Institute of Electrical and Electronics and Computer Engineering—internationally recognized; achieving national impact and global significance

**OUR MISSION:** To produce excellent and innovative engineers who are motivated and committed to serve the nation; and to advance the field of electrical and electronics engineering

---

**Envision a Better World**

We preserve HERITAGE through TECHNOLOGY.

---

**Bantay Wika Project**
We developed a database of Filipino words and applied a blend of linguistics, engineering, and other sciences to enhance mother tongue-based multilingual education.

**PHL-MICROSAT**
In partnership with universities from Japan, we are developing the Philippines’ first microsatellite, enabling access to real-time data for decision-making in disaster risk reduction management (DRRM), weather forecast, resource mapping, food security, agriculture, defense, and many others.

---

**Explore Possibilities**

**Graduate Program Tracks**

- **Computers & Communication**

- **Instrumentation & Control**

- **Microelectronics**

- **Power & Energy**

---

**Our flexible graduate programs prepare you for creative and challenging work in research and development, advanced engineering design, university instruction, and many others.**
